

The court may summon C. Bradley Patton, 760-438-3636, to obtain confirmation of the existence of these two backpacks and may request of that lawyer that that lawyer give to the court contact information to the retired judge who is maintaining safe keeping for that evidence (the retired judge's name is Judge Ramirez or some spelling close to that); I gave verbal instructions to Mr. Patton and that retired judge to give those backpacks strictly and only to a sitting [non-retired and active] judge at my request--and I had in mind "in my presence" also, meaning that I wish to witness that transfer of those backpacks to the sitting judge out of personal concern that this evidence not be misdelivered or mishandled, since a very great concern I have is confiscation of this evidence by the FBI and then subsequent denial of its existence. This is not, in my mind, an idle or frivolous concern, since I believe strongly that the FBI would like to classify my documents documenting their activity lest their techniques be exposed; such exposure is anathema to a federal institution such as the FBI. But in the plaintiff's view, these techniques are part and parcel with the FBI's unjust violation of the 4th amendment, and so I seek profound protection of my 1st amendment free speech rights to expose these techniques. I beg the court for understanding that I could not easily make this statement of the evidence more concise in the original complaint other than how it was stated, that these backpacks exist and that they contain evidence of that psychological abuse. I believe that this evidence rises to a level of conviction against the FBI not-beyond a reasonable doubt, but definitely above the level of speculation, and hence my request for profound protection for my free speech to expose these techniques is highly justified. The original complaint uses the phrase "speculated secret search warrant". I did not choose that phrase because I believe my evidence does not rise above the level of speculation, rather I choose that phrase in lue of the fact that I can not, with that evidence, reach a state of no reasonable doubt at all against the FBI. But this evidence definitely, in my view, the Plaintiff, rises above the level of speculation; for lack of a better word, that was the word I choose. This law suit is not about convicting the FBI of a crime; rather it is a request of the court to give the plaintiff profound protection so that I can be sure of true free speech to make my point to the world; the FBI otherwise has the power behind my back to suppress my free speech. I did give a copy of my statement of psychological torture to a newspaper reporter on Sep 19th, 2007, the lead editor of the Union Tribune for North County, and I believe that it never got published. That reference to that reporter is in the two mentioned backpacks. That reporter's last name, I seem to remember, was Oakenbloom, or something close to that.

The digital pictures of this evidence I speak of are printed and identified in some three-ring binders I have constructed subsequent to the original filing of this complaint on March 14th, 2008. These three rings binders took many weeks to construct, and I am loath to give out more than, perhaps, one copy (I constructed a total of five copies) to the court as an exhibit; I certainly have no intention to give these three-ring binders in the service process--rather the FBI should examine them as an exhibit after they have received service per the court's order dated

August 11, 2008. These three ring binders shall be identified as exhibit #1 for the white binder, and exhibit #2 for the blue binder. Even before this order I, the plaintiff, did attempt service via the North County Attorney Service, 760-940-1138. I have not yet, as of the writing of this motion on 18Aug2008, received back physical evidence of that service, but a phone message recorded on my home answering machine said service to one location (I did not realize that service to a Washington DC location was also needed) was effected on 8Aug2008, but without the original complaint. I took digital pictures of that service package at the moment of hand-off of that package to the North County Attorney Service owner; those pictures are submitted with this motion as exhibit #3. God helping me, I shall be making service via North County Attorney Service so as to properly meet the service requirements mentioned in the court order of Aug 11, 2008.

sincerely

From White Binder

Front page of
White Binder D. Z.

Note: All 000# pages in this spiral bound notebook you are reading have my right thumb print near the page # in the upper right corner, in Red.

This wire bound notebook contains the itemization of the white (and later also of the Blue 3-ring binders) 3-ring binders for case 08' CV 476 H LSP. 211 D. G. 21 May 2008

This particular 3-ring binder, Notebook #1, contains 212 paginated pages. 211 D. G. 19 May 2008

It also contains 10 plastic Jackets holding original faxes sent to my Lawer C. Bradley Patton that as a set document fairly well my effort to get evidence of FBI malconduct protected from FBI Ceasure. This evidence was delivered to a retired Judge Rameriz (Sp?) that Mr. Patton ~~he~~ knew and which was represented to me as able to protect that evidence from the FBI. At a later date I became suspicious that Infact Judge Rameriz either did not intend on protecting that evidence from the FBI or at least could not do so. So I filed Lawsuit 08CV476HLSP on Mar 14th 2008 at ~~the~~ United States District Court California South as my own representative. This I did in an attempt to protect that evidence and to ensure my free speech rights to show to the world the great evils that the FBI does to people.

2

thumb print underneath the page # in black

Because this evidence I believe is highly damning to the FBI the FBI is consequently intent on interfering with my ability to make this material known. There are four other white spiral bound notebooks with the same 212 paginated pages with all the same evidence on those pages.

Also, there are five Blue notebooks that document more such damning evidence of the FBI's evil invitation techniques using a form of psychological techniques that are best understood as fear-accumulating techniques delivered in a drip-drip water torture like fashion that can continue for years leading to paranoid schizophrenia in people who otherwise would never have gotten sick. The FBI destroys people's lives with these techniques. The white notebooks document these techniques with a document I wrote ~~entitled~~

Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof" written Sep 19th, 2007 and authored by me, Daniel David Zuck.

This document "Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof" ~~was written~~ is recorded in the original filing of this lawsuit DC CV 476 H LSP, and is included in the white binders at pages 144 thru 163, 20 pages.

The following is a rough ^{descriptive} itemization of the pages in the white notebooks.

* Pages 1-24 are digital-camera copied reprints of the original taxes in Jackets 1-10. Only notebook #1 has these Jackets. Notebooks #2-#5 all have these digital-camera-copied reprints of these original taxes.

* Pages 25-57 are digital camera copies of pictures of pages of a backup notebook for the first of three deliveries of evidence to the retired Judge. That first delivery of evidence was in the form of a back-pack. Note that pages 29-30 give an itemization of that original delivery of evidence. Page 28 shows the front cover of this backup notebook with a manilla envelope. That envelope contains a data DVD documenting the pictures ~~and~~ and evidence electronically as electronic jpeg files and *.DOC word processor files etc. . . .

4
↓

Attached to the rings in ~~this~~ the white binders at page 58 is a small white envelope that contains a small CD that records in electronic format version 254 of a 652 page paper I wrote on the Bible's view of human sexuality. It is a very complex document the significantly explores the spiritual meanings that the Bible gives to various aspects of human sexuality. This 652 page document (I like to call it a paper) also includes extensive discussion of the calendar of end times and some interesting dates on which Jesus Christ may return to judge mankind. As arrogant as this sounds, these dates are seemingly related to events I suspect ~~and~~ likely (Lord willing) to happen in my life in the future. This ~~document~~ 652 page paper is a Bible study I ~~er~~ wrote as I explored the matter of human sexuality, the end times and possible events in my life and also past events in my life that set the stage for my involvement in these events.

↓

A very important feature of my 652 page paper is a table of rules starting on page 562 to 564 with attendant text some pages before and after this table. This complex table of rules is an attempt by me to force a fair trial that I believe I can not get with the FBI and their unjust investigation techniques using coercive psychology that obliterates any observability of guilt or innocence as to the original accusation that started their investigation in my life and rather is coercively focused on strongly coercively motivating wrong behavior of the accused so as to then destroy the accused based on the thus caused wrong behavior not on the original accusation.

Pages 58 and 59 in the white 3-ring binder shows evidence of this document dated around Nov 12, 2007, when my last version of ~~the~~ my 652 page ~~document~~ paper was completed. ~~It~~ In the first delivery of evidence to the judge this 652 page paper was identified as "Item 16".

Pages 60-63 in the ~~3-ring~~ white 3-ring binder shows 40 documents that constitute "item 15" in the first

6

↓
 first delivery of evidence. This "item 15" constitutes two hand written documents signed as acknowledgement by other people that they have been exposed to my document ~~on~~ on "Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof" and that I assert that I am the author thereof. Page 62 is a document signed by two people in the home church I used to attend. And page 63 is a document signed by the therapist (psychologist). as I exposed him also to my document on the "Psychological Manipulation of Suspects by the FBI and the psychological Pain thereof."

* Attached to the White 3-ring binder at page 64 are two small envelopes containing two small ~~CDs~~ computer file CDs. These two envelopes are labeled "item 13" and were originally included as "item 13" in the first delivery of evidence to the judge. One CD shows a small computer movie that documents damage done (I believe) by the FBI as a pleasure-denying (the pleasure of successfully growing a garden)

↓

↓
technique as a part of the psychological manipulative techniques, which specific technique I call "pleasure-redirecting" or "pleasure-refocusing". They want to increase my focus on the idea of sexual pleasures by denying alternative pleasures, such as growing a garden. The other CD documents the packaging of some of my Omacor Medicine for the possible future examination of that medicine for possible tampering by the FBI (i.e., bogus and not the real stuff).
↑

* Pages 64-70 document items 10, 11, 12, and 14 as those items were identified in the first delivery of evidence to the judge.

* Item 10, page 65, are four actual Omacor Medicine bottles.

* Item 11, page 66, is the actual book on lovingly using psychology to train dogs. That book is entitled "The Loved Dog" by Tamar Geller. This book is significant because I refer to it in my document on Psychological Pain caused by the FBI. This reference can be seen on page 150 in the pages of the ~~3~~ white 3-ring binders in the upper 1/3 of that page in the area where you find the word "counterintuitive".

* Pages 67-69 are Item 12, which is the actual itemization list for the items in the first delivery to the judge. ↘

18

* Item 14, page 70, is an actual hotel room hair conditioner bottle that the Omacor movie (page 64) documents regarding installation of two Omacor capsules that might be tested in the future for tampering by the FBI.

* Item 9, pages 71-74, set forth a text file I wrote making effort to support the fact that I am the sole author of the document "Psychological Manipulation of suspects by FBI and the Psychological Pain Thereof".

* Item 8, pages 75-81, document in still photos damage done to my tomato plants. There are bulges a little distance behind the blooms that I believe were caused by a wire stripper (wire strippers do not cut wires intentionally; their intention is to cut the insulation around a wire, and not the wire itself). They look something like this

19

↓
* Item 7, pages 82-96, gives some documentation on the Omacor situation. (Page 85 is unrelated, and shows a picture of a set-top-box that I bought at Best Buy that I believe is firmware damaged - FBI motivated - so as to reduce interest in over-the-air TV delivery and increase interest in pornography-containing satellite TV). More documentation on the Omacor situation can be found at pages 129 thru 132

* as Item 4. ~~the~~ The document starting on page 130 and ending on page 132 is the initial ~~the~~ discussion on the Omacor situation. Further discussion on the Omacor situation may be found on pages 16-17 in the blue 3-ring binders, with supporting pictures in the blue 3-ring binders at pages 2-4.

* Item 6, pages 97-114, attempts to show both the file date for "Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof" and the connection to the "The Loved Dog" book, where page 114 in the white 3-ring binders shows pages 94-95 where we see the word "counterintuitive" that

↓

110

links that book to my document on ~~the~~ "Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof" that I wrote, finally showing the date of that document on my own lap top computer to be indeed Sep 19th 2007.

* Item 5, pages 115-127 shows the file directory structure with plenty of evidence that I wrote that 652 page paper of the Biblical Spiritual meaning of human sexuality.

* Item 4 was discussed on page 9 of the wire-bound notebook.

Item 4 is pages 129-132 in the ~~black~~ white 3-ringer binders.

* Item 3, pages 133-135, shows the shortened (my ~~life history~~ related life history was omitted to effect shortening) version of my document "Psychological Manipulation ~~of~~ of suspects by FBI and the Psychological Pain Thereof."

This short version was created because I was trying to force the FBI's hand in dealing with me by threatening and attempting to distribute this document. I was attempting to force issue to ~~then~~ then lead to execution of the table of rules on pages 562-564 of my 652 page paper.

also see page 164 in the white 3-ringer binder.

↓
* Item 2, pages 136-142, shows a version of "Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof" that reduces the number of pages by using columns and a small font.

~~Item 1~~

* Item 1, pages 143-163, shows the original document I wrote entitled "Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof."

* Page 164 shows a text file that was part of a small distribution CD that went along with the shortened version of "Psychological Manipulation of Suspects by FBI and the Psychological Pain thereof" in the shortened form on pages 134-135 of the ~~white~~ white 3-ring binders.

* Pages 165-211 give some redundant page print-outs. Some of the pictures here are blow-ups of the Omacor pictures and hence details on the Omacor bottles may be more easily ~~seen~~ seen.

12

The following is a rough, descriptive itemization of the contents of the Blue 3-ring binder notebooks.

Pages 1-20 ^{four} are grouped together but really are ~~the~~ distinct items.

* Page 1 shows a display of a directory named "MoreOnomacor" with some picture files shown in thumbnail format (small picture format). ~~Mixed into this directory are pages~~
~~pages 1-2~~

* Pages 2, 3, 4, 16, 17 are on the Onomacor situation. The Onomacor situation is better indexed on page 9 of the wire bound notebook under Item 4.

* pages 5, 6, 7, 8, 9, 10, 11, 12, 13 (5-13) document an old manilla envelope I put together seven years ago in 2001 in May just after ~~the~~ I perceived (or so I strongly believed then and still strongly believe) the FBI was investigating me. I put this envelope together because I was attempting to group evidence together that I was being investigated in order to help me convince others that I was being investigated, because other people were having a difficult time believing me.

page 5 is an overall picture of the contents of this old manilla →

✓
envelope. There are two newspaper articles shown, a hand written document, a typed written document — both documents I authored, a received fax, an old harddrive, and an old casset audio tape, and the manilla envelope itself.

* page 6 shows the hand written document. This hand written document has three distinct paragraphs, each paragraph discussing a separate item I believe suggests the FBI's involvement in my life. The most significant is the first paragraph mentioning a surveillance antenna (It had a phased-array like construction for directed beam operation). The second paragraph mentioned two short power outages that were 30 seconds and 1 1/2 minutes long — these power outages were probably due to an installation of a radio-frequency noise injector to inject radio-frequency noise into our house power lines to thereby inject interfering radio frequency noise to thereby interfere in my listening of KECR at 910 AM. ~~This~~ The motivation for the FBI to do this is related to the likely interrelationships between the investigation into my life and circumstance up north at Family Radio. See my 652 page paper section 15 for a detailed discussion on this relationship in the context of my life history leading up to the perceived FBI investigation. There was much radio interference when I attempted to listen to Family Radio and I believe the FBI was attempting

14

Keep me from listening to Family Radio. The third paragraph on the hand written document suggests that the M/S supervisor was ashamed to remain involved in the conversation with me because he somehow was knowledgeable via the FBI of some investigation targeted at me somehow related to children.

* Page 7 in the blue 3-ring binder shows a fax that I received on a short-lived Panasonic fax machine we had for a short time (it was a bad design) that looks to me like the FBI was testing me sensitivity to the issue of children, to see my response.

* Pages 8-9 are ~~type written~~ a picture of a type-written document written, most likely in May 2001, that has much discussion relating my early experiences in the investigation. The picture is clear enough to read directly, so nothing further shall be hand-written here

* Page 10 of the blue 3-ring binder shows an article dated May 16, 2001 about a judge that had gotten falsely accused. This article was preserved because of the discussion-atmosphere between me and my Dad at the time. My dad wrote "Dan" in the upper left corner of the article because he wanted me to read this article at that time.

↓

↓

* page 11 shows a computer hard-drive that I believe stopped functioning because of some mechanism internal to the hard-drive that newer hard-drives must have (per request of the US Government) that allows the FBI to disable a hard-drive in an attempt to preserve the data on a hard drive; this would be a secret mechanism that I perceive exists—I have no explicit knowledge of such mechanisms; it just make abundant sense.

* page 12 in the blue 3-ring binders shows an article on computer hackers. My Dad wanted me to read this because my assertion that the FBI was messing around with my computer via my modem was too fantastic for him to believe, and he rather believed that hackers were messing around with me instead.

* page 13 shows an audio tape. I do not remember what is on this audio tape and did not relisten to it to find out. Notice the title on the manilla envelope says "Sting Stuff" as at that time I perceived this thing as some sort of FBI sting operation.

* Pages 14-15 ~~shows~~ documents some adult pornography I have been involved with lately. There are three motivations for my viewing adult pornography, lately. One reason is I do have a modest weakness in this area. Two, the FBI psy. techniques were directed at motivating me towards such stuff. y

16

And thirdly, I am motivated to force, if I can, the trial defined by the table of rules on pages S62-S64, and so by messing around with adult pornography I am attempting to convince the FBI to arrest me so I could do battle with them. Subsequent I filed OSCV476 H LSP at the San Diego US District Court to again attempt to force a confrontation with the FBI because what they have done with me is very evil and unjust as a means of investigation - it is cruel and unjust all together!!

* ~~pages 16-17 has a further~~
 * pages 18-20 has a further discussion on psychology and what the FBI techniques do, and how those techniques operate.

* Pages 21-48 are pictures of all of the pages of a notebook that includes psychological journaling I did in order help with the psychological stress I was going through during the investigation. This notebook also contains other stuff besides psychological journaling. It also contains stuff relating to my efforts into commodities (soybeans, corn etc...) and other stuff as well.

Pages 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 43, 44, 46

document my journaling text. Page 41 is very significant in the composite

picture drawn to show the numerous insulting reminders of the presence of the FBI investigation. I now believe that the best way to understand these reminders is to perceive them to be little fear adding reminders, that over time, produce a huge reservoir of fear that cause torture-like-capitulation to the FBI as perceived in the mind of the suspect to cause the suspect to act-out in the self-condemning way that the suspect perceives the FBI wants.

* Page 49 shows a canceled check end-stub relating to payment for ISP service from Integrity-On-Line, since I needed filtered service to protect me from on-line pornography.

Pages 119-123 document this relationship further, with the canceled check shown on page 121. Also pages 108, 109.

* Page 50 shows my lap top computer clearly, the Gateway lap top that is.

* Pages 51, 54, 55, 56, 57, 58, 59, 60, 61, 74, ~~108~~, document the Integrity-On-line DSL modem I used. The Integrity-On-line service is a pornography filtering service that is high quality. Nevertheless, without the ability to prove the following statement I will make the following statement anyway: my Integrity-On-line service badly failed to protect me from on line (internet pornography) and the FBI was the cause for that. I know this happened to me but proving to others that this happened may be impossible or at least very difficult because of details in the

14
 event including the fact that at one point I erased the temporary internet files. I did keep the hard drive that went through this event, though. But the FBI most likely designed the event (with the virus like activity that characterized it) so as to hardly leave a trail.

* page 52 shows a letter I received from my present employer acknowledging some stock options I might exercise. These were awarded very privately to me by mail soon after I was beginning to achieve real success in synchronizing the RFP AC modules. I believe Xantrex was so happy with my work that they mailed me this stock option offer. (The letter pictured on page is ~~not~~ the first one sent, but rather is some sort of periodic follow-on.)

* page 53 shows the two back sides of two DVD jackets for the 1963 Outer limits science fiction series for TV.

One show entitled "O.B.I.T." is, I believe, a very significant press statement against the spying of the McCarthy Era McCarthyism of the 1950's. The DVD is included and said episode could be watched in a court hearing process.

The other show of interest is entitled "Corpus Earthling", and is a very significant statement of the cost (emotional and otherwise) of being ON-TV (wise to) those who are spying on you. Those who are ~~spying~~ spying

hate it when their cover is blown.

They will seek your destruction.

* page 62 is a discrete (sanitized) picture of some DVD/magazine adult pornography I have purchased. This is a problem area in my life and I am admitting it. Startingly, at the time I am writing this note you are reading, I have very strange religious views by which I even justify it. Please ask me and I will try to give you a reasonable answer to this complex matter. But in summary I have three motivations. ~~The~~

~~First~~ See page 15 of the wire-bound notebook and go to the bottom entry on that page that is identified as "pages 14-15" to read of my three motivations.

* pages 63-71 show two tomatoes that eventually did form on my planter-garden tomato plants. I show this for honesty and completeness, though I absolutely, firmly and strongly suspect that the FBI has been damaging my tomato plants per the discussion given in the lower half of page 8 of the wire-bound notebook. The FBI may have used the wire-stripper techniques here also, but subsequently add some gardening/horticulture compound that helps plant grafts to succeed. This would allow the ~~the~~ injured blooms to heal and to subsequently produce tomatoes, and this would cause confusion in perceiving the conclusion (a smoke screen in other words) that the FBI was ~~the~~ inhibiting the success of my tomato plants. ✓

20

* pages 72-73 show the communication from my cell phone network provider that I add internet pornography filtering identified on page 73 as "content filtering Teen +13," meaning anything ~~is~~ appropriate only for a person 13 years of age and ~~younger~~ older would be filtered out.

* page 74 shows computer hard drive that was involved in event when my main on-line content filtering internet provider failed to do their filtering. To read further, see bottom of page 17 in this wire bound notebook at entry "* pages 51, 54..."

* pages 75-83 show an academic paper I wrote for a small technical conference on neural networks in 1991. This shows my involvement in the subject, with some display of understanding for what I am doing in this subject area of artificial neural networks.

* page 84 is a copy of my birth certificate to establish a little better that I am indeed Daniel David Zuck, born Dec 14, 1957.

* page 85 is a copy of a course certificate showing completion of an one-week 40 hour course in artificial neural network system design

* page 86 ~~shows a copy~~ is a picture/copy of a certificate that shows I received first place by competing with other ~~high~~ high-school students in testing in the subject area of physics.

* pages 87-88 shows my Palomar College transcript. My GPA was 3.56

- ↓
- * pages 89-90 shows my San Diego State transcript in regards to course work towards my master's thesis. The courses on page 89 ~~were~~ include "Math 371" which is not listed towards my MSCS (Masters of Science in Computer Science), but which I needed to take anyway, as a preliminary.
 - * pages 91-93 show the approval documents from ~~for~~ which I started to work on the thesis itself to do the research and the writing after having successfully completing the shown class work
 - * pages 94-95 show a copy of my resume at the time I was transitioning from employment to work on my MSCS ~~and~~ SDSU.
at
 - * pages 96-97 shows my high school ~~trans~~ transcript.
 - * pages 98-99 shows my University of California at Irvine transcript towards my Bachelor of Science in Engineering.
 - * page 100 shows a membership I had in an Engineering honor Society at UCI.
 - * page 101 shows my BSE from UCI diploma of year 1981
 - * page 102 shows my GRE test scores as I was preparing to pursue my MSCS.
 - * page 103 shows another engineering honor society I became a member of while at UCI pursuing my BSE. To be a member of this society one had to be in the top 25% of his or her ~~graduating~~ class. And I remained in this top 25% in my graduating class.

22

* page 104 An envelope I kept my GRE score records in.

* pages 105 and 106 show two pages from a book entitled "Adam When" written by Harold Camping, ~~the~~ book shown on page 107. These two pages show ~~the~~ two very important calendar tables if one is to properly align today's Gregorian (\times Julian) calendar with the ancient Jewish calendar. On page 148 of the book "Adam When" on wire bound notebook page 106 there is a very significant footnote numbered "14". When this foot note is taken as justification to discard the ~~calendar~~ column entitled "Julian Equivalents," then one is free to note that on page 147 of "Adam When?" (shown on page 105 of wire bound notebook) we see that the Macedonian months ~~line~~ align closely (within 2 or 3 days) with the Julian months such that Dios (the first Macedonian month) lines up with September (within 2 or 3 days). This means when we go back to page 148 in "Adam When?" and align Dios (the first Macedonian month) with Tishri (the seventh Jewish month), so that we may conclude that our September aligns with Tishri

$\{$ = first only in terms of table on page 147 of "Adam When?"

and that our gregorian month march ~~calendar month~~, when we count forward as follows.

Gregorian
September
October
November
December
January
February
March

Jewish
Tishri
Marheshvan
Kislev
Tebeth
Shebat
Akar
Nisan ← The First
Jewish
Month, See
Ester 3:7

Hence my study of the day-to-day events as Jesus went to the cross in my 652 page paper on pages 600 to 642 shows the Jesus died on the 14th of the first Jewish month, Nisan = March, and rose again on the 17th of the first Jewish month, Nisan = March. So based on this analysis we see that I am saying that Easter should always be on the 17th day of March, irrespective of the day of the week. This ~~is~~ is important to understand because this date was the last date I speculated the statute of limitations of the unknown accusation against me would likely terminate. See page 566, the second paragraph, for further detail on the matter of the statute of limitations issue, in my 652 page paper.

24

Also, to fully understand the situation of my life that lead up to my interest and motivation in filing lawsuit '08CV476 H LSP at U.S. District Court, California Southy please read my recount of the history of my life recorded in my 652 page paper at chapter 15 on page 549 and following.

- * Pages 108-109 show bank statement(s) that show the clearing of check # 669 for \$582.00 post date July 28, 2006. This is more evidence of a payment for one year of service with Internet Service Provider Integrity-On-Line, an high quality Internet pornography filtering service. Nevertheless, without a strong ability to prove it, I experienced a failure of protection from internet pornography via Integrity-On-Line, and I firmly suspect that that was caused by the FBI ~~at~~ forcing Integrity-On-Line computers to allow-such.
- * pages 110-111 show a large print-on-canvas of my best fractal that I ever found as I manipulated a fractal generation program named Talis that is free, and which I obtained from the internet. This shows my playfulness with mathematics, which is consistent with my interest in numbers in general, and is consistent with my interest in the numbers of the end-time of the World and universe.
- * page 112 is a copy of a section of the US constitution, and my lawyer C. Bradley Patton gave ascent in agreement that what I have been going through with the FBI is a violation of the 1st, 4th and 5th amendments.

And my lawyer C. Bradley Patton later gave witness to this ascent before a friend of mine named Milton Parker at a meeting between me, Mr. Patton, and with Milton listening and contributing a little bit. Also at this meeting, which was on March 13th, 2008 in the afternoon, if I remember correctly the time of day, ~~any~~ C. Bradley Patton, my lawyer, gave sufficient conversational information so that Milton Parker does indeed know, per the nature of the conversation between me and C. Bradley Patton, that those two backpacks of evidence that I say exist indeed do exist. The fundamental plea I brought to Mr. Patton was an interest in transferring the backpacks from the retired Judge (Judge Rimeriz (SP?)) to a sitting judge. Mr. Patton strongly assured me that the two backpacks were safe and were not going anywhere (i.e., not going to get collected by the FBI). Milton Parker witnessed this entire conversation, on March 13th 2008.

* pages 113-117 show some of the remote control planes I have. I have had difficulty with some of these planes which the FBI may have caused, namely weak prop shafts that snap too easily. Because I have sought to repair things, I have no meaningful hard evidence to present, but I assert that the FBI is simply trying to cause anger and fear and pleasure re-direction, similar to the wounding of the tomato blossoms.

26

* pages 117-118 show a book from Harold Camping that places a very sensible age on the earth, and hence a fine table for ~~last~~ past events, that places the earth at about 13000 years old. Harold Camping's view on numbers in the Bible is a big influence on how I view numbers in the Bible.

* pages 119-120 show an ICON on my Laptop (that has since gone-away due to a re-coversy action unfortunately needlessly did [only later did I realize the needlessness of that action]), and this ICON shows evidence that I used my Laptop for wireless access to my DSL modem ~~and~~ via Integrity-On-Line, and page 120 particularly shows dates when that ICON was created.

* pages 121-123 shows a canceled check that was payment to Integrity-On-Line for service for one year (since I like to pay one year at a time to reduce hassle)

* also 181-187 pages 124, 127-177 are a full documentation of the items that ~~were~~ went into a ring-bound notebook that went into the third delivery of evidence (that went into the second back pack).

* pages 125-126 are out-of-place, but they are meaningful. During the 7 years of the investigation (as I perceived it to exist) from 2001 to 2008, Escondido City building/housing tract 883 went in starting at about 2004 or 2005 and completing early 2007. My contention, though I do not have the ability to prove this beyond a reasonable doubt, is that the FBI was aware of illegal manipulation of the property boundary of my father's property. ↗

and out of a need to help my father I sought to examine the property boundary issue. This situation added much stress in my life (on-top of the FBI's normal stress-causing-evil-techniques-of-psychology being used on me daily) and my father's life. Personally; if I could prove this matter, the city of Escondido is liable for payment due to excessive emotional stress, as well as manipulation of a property boundary. But I can not prove it beyond reasonable doubt because the accuracy of my unorthodox measurement techniques can not be established without first recreating the whole situation and repeating the measurements to establish statistical variability and hence a reasonable estimate of accuracy. Nevertheless, the complex, unorthodox measurements I did make suggested to me that the western most property boundary was shifted east exactly 2 feet so that the ~~soa~~ major southern border could be south enough to cause a ~~telephone~~ utility pole to be on my father's property (the southern boundary would have to move south to keep the total area of my father's property effectively unchanged), thus placing the burden of an easement to that pole onto my father's property. Since I can not prove this statement, the accused must be assumed innocent and I must be assumed incorrect. Nevertheless, I must explain my concerns around the FBI in my life.

28

* Pages 178-179 show a wooden rack with greeting cards in that rack with the intention of selling these greeting cards in a setting such as a doctor's office. This attempt was made in a Chiropractor's office for a short while and a few cards were sold. That chiropractor was Dr Linn, who died about 8 months to a year ago, (from now, which is 26 May 2008). I made these cards with interest in becoming sufficiently independent financially to ease the difficulty of caring for my aging father. Because the FBI, or so I speculate, was very much interested in preventing me from making uncontrolled contact with people (the FBI has me in a bubble or clear-walled-prison wherein they control all human contact in my life—supposedly they would say for the protection of others, but also to keep from damaging the progression of their investigation into my life), the FBI in subtle ways actually caused this business venture of these greeting cards to fail.

* page 180 is difficult to understand except for me. So please let me explain. The silvery image is actually a cardboard box covered with aluminum foil, and the small slot at the bottom of this silvery image is actually a slot for my eyes to look into. Though I can not perceive in this picture the arm holes, there are arm holes underneath the box. This box was built by me as an attempt at creating a communication (a letter) that the FBI bugs (or so I believe) could not see and read. A small ~~Ex~~penlite was used inside so I had enough light to write. This is →

a simplified explanation in that at times I actually had my laptop inside in an attempt to conceal the screen as I typed a letter, and then covered the page as it came off of the printer via a usb cable.

* pages 181-187 go with 124, 127-177

* pages 188-255 document my unorthodox measurements of the property boundary issues connected with my father's house and Escondido Tract 883. Rather than document these documents here in detail, I will simply discuss them verbally if and when appropriate.

This stabled bundle of 23 sheets is mostly a set of faxes to my lawer that I sent over some period of time starting around 11Oct2007 and going into March 2008. This set of faxes comes from a haphazard pile I had, and so I am fairly sure that some faxes I sent to my lawer are lost and so not included in this bundle. The faxes that are shown here are sufficient to show the progression of effort on my part to protect evidence from collection by the FBI so as to then cover-up the profound trickle-trickle here-alittle, there-alittle water torture psychological, as I interpret events around me. (The typed document on more psychological stuff may or may not have been faxed, but it was in the pile, and I did write that typed document.)

Dear Mr. Patton,

I do not know if you have the largeness of heart to believe me that I am falsely accused, and that is O.K. Consider that I am asking to go to prison, just under specific conditions. I am asking you to help me achieve those conditions. Thank you.

Dear Brad Patton,

I just installed a new fax. You should also be able to fax to 760-740-0342 as well as leave voice messages. All files on the disk I gave you are open for your examination and reading. The 599 page document I want you to read is BiblicalHumanSexuality249.pdf or .doc. Either file are identical. One is pdf file format the other is doc file format. Also read Pstain.pdf. I think the Oct 19th deadline is impossible for posting of this 599 page paper. Thank you, Daniel Zuck

Dear Brad Patton,

The version of the 599 page paper you have is 249. I have a new version with changes in the table that shows currency values of 150,000,000. That currency in version 250 is in euros, not dollars. Version 250 obsoletes 249 in this aspect. The changed area is attached with this fax transmission. Thanks.

my accuser confesses before April 1 and after the 150,000,000 euros threshold has been met, then he will be awarded the entire amount of the trust fund tax free. This amount will, of course, be greater than 150,000,000 euros because by definition the trust fund has crossed that threshold. The motivation I am counting on that will keep my accuser from coming clean after the 150,000,000 euros threshold is met and before April 1, 2011 arrives is his fear of God that he will be taking the rewards of lies, the very idea that the Old Testament false teacher Balaam is faulted for:

2Pe 2:15 Which have forsaken the right way, and are gone astray, following the way of Balaam the son of Bosor, who loved the wages of unrighteousness;

He will be very troubled in his hope to make his calling and election sure if he takes money like Balaam wanted, and like Judas did. He will not want to be in their category before Almighty God. His idea of a grace-only Gospel will not extend to that great degree of lasciviousness. He will fear God too much to make that foolish move.

If he waits without ever confessing that he has born false witness against me so that April 2, 2011 arrives, then he will be given the entire amount of that trust fund, again tax free, and he will have never had to say anything so that he never had to come clean, and the huge money, whatever it may be--perhaps billions by that point--will be his, and he will be a very rich man. And I will stay in prison for how ever longer the US judges deem I must stay to fulfill my full sentence for all charges brought against me. Again, the motivation I am counting on to keep him from doing this is that he will not want to be in the category of Balaam nor Judas before Almighty God because of his false accusation against me. Also, this false accusation against me will bring great shame, not only on me, but on any who have defended me and stood for me, particularly those who have associated with me by defending my tract "The Apostate Church". This great shame will cause the two witnesses to be killed. The true Gospel will be hurt and weakened for a total of 3.5 years (the 3.5 days of Rev 11 are really years--more on this later). This man's accusation will be the act of betrayal that lead to the killing of the two witnesses of Rev 11. My accuser will know that he has done a great evil, and he will be so frightened before Almighty God for what he has done that he will be petrified to accept that money on April 2, 2011. Thus he will be highly motivated to confess on April 1, 2011, April fools day. When he confesses on April fools day, he will be admitting that he has made a fool of all of the apostate churches of the world who believed a lie--which is what the apostate churches love to do, they love lies and to believe lies--and he will be saying that he has made a fool of the FBI by this false accusation. But the FBI will be prohibited from arresting him or legally attacking him in any way for that lie to the FBI, because this prohibition will be agreed to by the FBI beforehand. Also, my accuser will by confession on April 1, 2011 *not* receive any money from the trust fund--that will be a rule of this contest. He will receive a clean conscience because he has now confessed in a way by which he does not receive any money, and so he will have escaped falling into the category of Balaam and Judas. And I will receive that 150,000,000 euro reward fully tax free paid by the US government to me for the false imprisonment and horrendous water-torture like psychological police harassment of 6 years. And the world will have learned an important lesson involving getting confirmation by two or three witnesses before letting an accusation stick. The same principle that must be respected when interpreting the Bible by comparing the Bible with the Bible to find truth. Each verse of the Bible is a

page 3 ~

witness or testimony, and we must compare true witness with true witness to find out the truth; that is how the Bible is to be interpreted.

Also, if he confesses on April 1, 2011, the many millions or even billions of euros in that trust fund will be used for paying for psychological therapy for people and children who were molested as children. Thus, this fund is a worthy cause, even if my accuser does not collect the money.

In view of this worthy cause, many churches should consider giving to this trust fund. But there is one catch. I will require that before a pastor of any church or religious organization decides to give money to this fund, they must, in all good conscience, require any member of their church or religious organization to read this paper in its entirety. You see, this is a legal contest, and in a legal contest the jury must listen to all sides of the contest before the vote. If any person gives any money to this fund without first reading this paper, or without having this paper read to them, then they are being an unjust jury that has not heard both sides--may God Almighty judge them if they refuse to deal with me honestly. If you apostate churches are so truthful and if you indeed love truth, then in all good conscience you must require every member of you church, before he or she gives to this trust fund, that that person must read this entire paper, or have it read to them. Somebody out there might do me a great favor if that person or those people would read this paper into MP3 format so that people who can not read have an easier means of hearing the contents of this paper--then they in good conscience vote with their money. Then make this MP3 file or files available for download from the same web site that hosts this paper in text form. Thank you, whoever you may be that may do this kind thing for me and for the world and for God. Also, this paper must be available for download from this same web site as well. These files must be freely available without charge, even the MP3 files. People may take these files and burn them onto CDs or DVDs and then give those files away in that way as well. In summary, the exact rules of this contest are per this table, and this table supercedes any discrepancies with the text above:

Once a donation is contributed into the trust fund, no contributor may receive a refund. The value of the trust fund must never, under any circumstances, go down. Only per the rules in the above table may the trust fund be emptied. Either emptied for transfer to my accuser, or emptied for transfer to the psychology therapy fund, per the rules in the above table.

European currency in the full numerical amounts show in the above table shall be paid on the dates specified per the rules of the above table. The money paid to me, Daniel David Zuck, born 12/14/57, of 150,000,000 euros from the USA government shall be wired within 30 minutes after my accuser's confession to a Swiss bank account in my name at a major Swiss bank headquartered in Switzerland; details of that account will be worked through with my lawyer at that time, if my accuser confesses on April 1, 2011, to falsely accusing me. The wiring shall be one-way only into that account; no permission shall be given to any human except me, Daniel David Zuck, to remove money from that account; and I must be personally present at that bank to remove money from that account. The currency exchange rate between dollars and euros shall be irrelevant to the above table.

page 42

All payments are to be made in euros using the specified values in euros on the dates specified in the above table.

If I die, or my accuser dies before a permanent destination for the collected money is awarded the money per the rules of the above table, then a judge mutually agreed to between my lawyer and the FBI shall determine the disposition of this money, with statements from the major contributors of at least 100,000 euros or more being seriously considered by the judge.

If my accuser refuses to agree with a legally sound and strongly binding contractual agreement to the above rules, then he must be assumed that he is fearful to receive the money, and so he must be assumed to have born false witness against me, and so he must be arrested and imprisoned for 3.5 years, and I must be immediately freed, but without money. If my accuser is telling the truth and accusing me honestly, then he has no reason to fear this money, and God will be on his side. His family should encourage him to make this contractual agreement if he is so honest. They will all want this money and the many things that they can do with it. Or they could start some sort of fund to help molested children themselves--but to get this money, he must contractual agree to the above table of rules; otherwise he is assumed to be lying and he must be arrested and imprisoned for 3.5 years, and I must be immediately set free.

If the US government refuses to enforce the paragraph above requiring my freedom and that my accuser be imprisoned for failing to sign onto a legally sound and strongly binding contractual agreement with the above rules, then I will force the matter of the horrendous water-torture like violation of my human rights and religious rights by the repeated psychological police harassment for the last 6 years all the way up to the US Supreme Court.

Now, my requirement that my accuser be imprisoned for 3.5 years if he refuses to sign on contractual, and also be imprisoned under the various conditions of the rules in the above table is based on the principle that a false witness must be made to endure the harm that he intended to bring upon a fellow neighbor. As we read in verse De 19:19 below:

De 19:15 One witness shall not rise up against a man for any iniquity, or for any sin, in any sin that he sinneth: at the mouth of two witnesses, or at the mouth of three witnesses, shall the matter be established.

16 If a false witness rise up against any man to testify against him that which is wrong;

17 Then both the men, between whom the controversy is, shall stand before the LORD, before the priests and the judges, which shall be in those days;

18 And the judges shall make diligent inquisition: and, behold, if the witness be a false witness, and hath testified falsely against his brother;

19 Then shall ye do unto him, as he had thought to have done unto his brother: so shalt thou put the evil away from among you.

20 And those which remain shall hear, and fear, and shall henceforth commit no more any such evil among you.

21 And thine eye shall not pity: but life shall go for life, eye for eye, tooth for tooth, hand for hand, foot for foot.

Dear Mr. Bradley Patton,

How are you doing on the reading of my paper? I will eventually have a version, Lord willing, version 253, that will include that new section I mentioned to you. We need another visit together. I have material I need to discuss and give to you. Thank you. my cell is 760 807-1986. An end-of-day or lunch time visit planed ~~and~~ one day in advance would be nice. Thank you.

Dear Mr. Patton,

I do not believe my circumstance may be resolved satisfactorily until after the FBI ends the investigation and reveals its existence to me. I retain you as my lawyer and legal representative, and ask that you do read the documents we discussed at our last meeting. And I ask that you keep all the materials I have given you, including all computer CD's and printed materials. But we must wait until after the FBI has openly admitted the existence of the investigation to me AND that after that point we, you and me, then have a further meeting together; then we may deal further with them together. Thank you. God bless defense lawyers!

Dear Bradley Patton,

You agreed with me that we might meet some evening ^{with the judge} and at our last meeting ^{Monday evening} I strongly requested that time was a good time to transfer the contents to the Judge. But I must give it to him or at least see him receiving it, so I could not give to you the back pack with my evidence last evening. I can no longer keep watch over that back pack 24 hours a day. Hence my evidence is subject to alteration and ~~see~~ ceasure/alteration and destruction by the FBI. Maybe we could meet this Friday evening. ^{Thursday} OR I have a dinner meeting this evening at Home Town Buffett. Call me on my cell at 760 ~~807~~ 807-1986. Just for the record, when I mentioned that ugly letter I received from my sister, and you asked me if I replied, I said I did reply by phone. I forgot that I had also replied as well by a short letter. She should give that letter to the FBI and we should see that letter in court. It expresses my anger against her letter and my religious view that she is out of place as a woman intervening in my life the way she appeared to be doing. Just for the record.

More on the Psychological Torture Principles used by the FBI
written by Daniel David Zuck on Jan 29, 2008 at 5:37PM

This document augments my earlier document written on the psychological pain caused by the FBI's psychological investigation techniques used on me; that earlier document was originally written by me, Daniel David Zuck, on Sep 19th, 2007.

The concept of psychological manipulation by the FBI in order to cause coercive psychological force upon a suspect involves a fundamental principle of psychological healing activated by the FBI in reverse to thereby cause psychological sickness.

The principle is really best understood when one understands that the psychological principle of denial is actually a summary of any and all psychological defense mechanisms. In other words, psychological defense mechanisms are each one a form of denial. If too many and/or too deep/powerful defense mechanisms form in a person's psychology, that person is in fact in some state of denial that those defense mechanisms are allowing that person to maintain. Those defense mechanisms allow that person to ignore some aspects of reality around him or her. The principles of psychological healing used in psychological therapy involve techniques that allow a person to slowly confront those defense mechanisms and to slowly remove those defense mechanisms until that person is better able to face reality, and to thereby heal. Another treatment that leads to removal of these unhealthy defense mechanisms involves a more direct therapy where a person is taught to see the incorrect behavior they are engaging in an encouraging way such that they begin to drop that incorrect behavior as they begin to gain success at avoiding the bad behavior and to execute proper behavior instead. When they gain success at avoiding the bad behavior and begin to taste success, then they begin to drop the defense mechanisms that they were engaging in that helped them to deny their bad behavior and their guilt. Both treatment schemes work, but the second scheme is more brutal and less gentle, but much faster. Nevertheless, some circumstances require the more gentle approach, and some benefit from the more direct approach.

The techniques of the FBI involve operating both treatment principles mentioned above in reverse to cause sickness. The FBI uses their ear-radio-bugs that they put into people's ears to direct people's conversation towards a suspect such that that suspect is confronted by comments that put the suspect into an awkward situation so that in order to answer/confront those comments the person may have to mention the FBI in a context that

22

Page 2

would make that person feel like a fool. This fear of looking or sounding like a fool then encourages the suspect to say something that denies the reality of the FBI in his or her life--thereby the FBI encourages denial--this is a very wicked manipulation by the FBI that, over months and years of an investigation could propel a person into very real psychological sickness. To avoid this force towards sickness a person really benfites greatly by seeing a psychological theorpists to whom the suspect may relive these ridiculous situations that the FBI puts that person into such that that suspect may speak the truth without denial to countervail the force towards denial-caused-sickness that the FBI is attempting to put onto the suspect. Also, the other principle of gaining success at something that a person is attempting to do, but is frequently failing at which then leads to denial in an attempt to run from that situation, the FBI uses also to cause denial and sickness. In otherwords, the FBI attempts to cause a suspect to set up goals, such a controlling of one's eyes (the FBI can tell very precisely where you are looking by their technology) to such an extreme level that the suspect is guaranteed to fail. Then the FBI manipulates the situation around the suspect to cause repeated failure, which then promotes the suspect towards a state a denial as the repeated psychological pain of repeated failure overcomes a person.

The anti-theorpy sickness-causing denial-increasing processes that the FBI imposes upon a suspect are very capable of making a person so sick--if they do not understand what is happening to them--that the denial may reach such a state that the sin-crime circumstance that the FBI is attempting to sting a person with may become a very greate temptation as the FBI also performs pleasure-seeking-refocusing techniques on a person using principles of teasing and such-like. If a person slips too deeply in such directions, that person's denial may begin to cover such sinful behavior that they then add more denial to their psychological mind-set such that they enter into a kind of tail spin by which they self destruct. This is the end-goal of the FBI's psychological sickness causing techniques. At reaching such a state of sickness, the FBI has achieved a state of affairs in that person that is completely indefesible for the person in court, since the person looks very sick to the judge, and the FBI will deny in court that the FBI used psychological manipulation techniques that are very capable of causing sickness. And with a person in such a sick state, the FBI can say to the judge that the words of claim by the person that the FBI's manipulation techniques caused their sickness will seem very slight and unconvincing, and so the FBI will have successfully destroyed a person in court, and the FBI has lied in court by presenting the situation so as to deny that the FBI caused that sickness.

Page 3

I also wonder if the FBI uses some form(s) of hynotic techniques by which they gently train a conversation-behavior with a person while a person (suspect) is asleep, thereby cause a person to talk in their sleep so as to reveil things that would not be said while awake. This is a form of very intrusive search that must be a violation of the US constitution's rejection of unreasonable search and ceasure, because if such privacy is breached, nothing is off limits and prohibition of unreasonable search has no meaning.

The following 31 pages stapled to this page give pictures of a *backup* notebook that was created at about the same time that the first delivery of evidence in the first back pack was given to the retired judge for safe keeping. The date shown on this backup notebook is Dec 3rd, 2007. And in the manilla envelope shown in the first picture of that backup notebook is a DVD that shows the evidence-related file and directory structure on my lap top computer at that time. That DVD has not been opened as of this date that this document you are now reading was written (Apr 19, 2008). If it is opened, the file dates that may be found on it should not exceed the Dec 3rd, 2007 date on the manilla envelope that the DVD is encased within if that envelope has not been opened since it was last sealed.

I hope that that original backup notebook ends up protected by an active authority possessing sitting judge (rather than a retired judge) along with the document you are now reading.

The other documents behind these first 32 pages are color laser printer prints of many digital pictures and recorded electronic documents that come from my lap top computer that document the first delivery of evidence to the judge. Sixteen items are documented, though that first delivery contains 18 or 19 items; an item list that is part of this recreation shows 18 items.

Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof

My name is Daniel David Zuck, born 12/14/57. Due to an unidentified false accusation against me (see the later section of this document where I state some of my life history and how I got into this situation of being investigated by the FBI via a secret search warrant), I have been subject to a psychologically based investigation whereby the FBI is attempting to justify some accusation against me that must have something to do with pedophilia, to the best of my speculation--do not immediately fault me; please read my life history that lead up to this situation before you wrongly assume I must be guilty of something; this life history is a large section at the end of this document. The reason that I am writing this document is to expose these psychologically based techniques because I have experienced them as a form of deep psychological torture, and because these techniques amount to coercion and go very far beyond any just method of determining guilt or innocence in regards to any charged criminal action. These techniques are very benign looking to any observer on the outside, and a core theme to the techniques is the manipulation of the emotion of fear. Now, does fear of the police always imply that the person who is doing the fearing is guilty of something. Consider the fear of a surgeon who is known to make errors in the past, and you are being forced to submit to a difficult procedure done by the surgeon. Furthermore, what if the surgeon had a family relationship with your family that was unfriendly. His attitude just might let him make a deadly or harmful mistake. This is the situation with the FBI. Their attitude must be incorrect, since their use of the principles of the psychology of fear includes a presumption of guilt. The reason I say this is because their use of the principles of the psychology of fear are actually very psychologically painful, even as water torture is in fact very painful psychologically. No person viewing water torture would think that such a thing is psychologically painful if they have no understanding of psychology--it is just little drops of water, how could that hurt? But, subject such a foolish person to the water torture himself, then he will begin to understand. Because torture is such an evil thing, we here in the United States know such a thing should not be done to suspects before guilt is fully determined in a proper court of law. If someone falsely accused you of something, and if the FBI decided to psychologically torture you with water torture to see if they could force a confession, that would be very unjust. Now, you might take the foolish view that you have done anything wrong, and so such a thing would never happen to you. This is a rather stupid statement, and you are being an utter fool. Do you not know that there are many, many people who lie in this world? Or, are you putting on rose colored glasses and supposing that some of these many liars in the world around you would never falsely accuse you? If one of these liars hates you, he just might accuse you of molesting his little girl, and seek to blackmail much money from you, or he may even be seeking to put you into prison, simply because he hates you --and all he has to do is cause the FBI to believe his lie and then have the FBI subject you to psychological water torture indefinitely until you confess to something in fact that you did not do. This senario is all together possible because this psychological torture is being used by the FBI before they have proven that you are guilty. If the law of our country prevented the use of torture before the establishment of guilt, then this evil situation could not have come upon you, as long as the FBI reasonably held to that law.

This approach imposes the suffering that should be done to a person only *after* said person has been found guilty. Torturing should not be used as a means of gathering a

If one of these liars hates you, he just might accuse you of molesting his little girl, and seek to blackmail much money from you, or he may even be seeking to put you into prison, simply because he hates you—and

all he has to do is cause the FBI to believe his lie and then have the FBI subject you to psychological water torture indefinitely until you confess to something in fact that you did not do. This scenario is all together possible because this psychological torture is being used by the FBI before they have proven that you are guilty. If the law of our country prevented the use of torture before the establishment of guilt, then this evil situation could not have come upon you, as long as the FBI reasonably held to that law.

This approach imposes the suffering that should be done to a person only after said person has been found guilty. Torturing should not be used as a means of gathering a confession. If there ever is a justification for torture, it would be justified as punishment only after guilt has been determined. Hence, to use water torture to obtain a confession before guilt has been determined by a proper jury decision in the full court hearing process amounts to suffering before guilt has been determined. Now, our US constitution prohibits cruel and unusual punishment. Do you suppose that this prohibition is to be applied only after the establishment of guilt, thereby protecting incarcerated people in prison who have been established as guilty? If someone is guilty of some crime and our constitution prohibits cruel and unusual punishment after the determination of guilt, how much more should this prohibition protect someone before the determination of guilt by a court of law? A presumed innocent person must get even more protection from punishment all together, and especially torture, since they do not deserve any suffering until guilt has been established by a court of law. Hence, to torture someone with a subtle form of torture that mimics water torture in a psychological way must be ruled out as unconstitutional and a violation of the presumption of innocence until proven guilty.

Now I said that the psychological torture that I have in view involves fear. If someone said to you that you are going to be subjected to actual water torture, would that produce fear in you, even if you are innocent and did nothing to deserve that? Of course, that would produce much fear, especially if the statute of limitation of the crime were 5 years, and you were going to be subjected to this water torture endlessly for all 5 years in an attempt to extract a confession from you for something that you did not even do. You would be terrified, and yet this torture involves mere little drops of water. Other fools may look at you while you are being tortured and say in their hearts: "he must have done something wrong, or he would not be in that evil situation". These fools have yet to experience one of 6 billion liars in this world coming up with some crafty false accusation against that fool so that that fool finds himself unjustly in that situation.

Suppose that for the FBI in our day of understanding of psychology decided to use insults and psychological-suspicion-magnifying and anger and fear causing techniques as replacement for drops of water, that would still be a very evil form

psychological water torture that they have been doing against me. Remember, water torture does not look painful, but in fact it is extremely painful to a psychological sense. Do not underestimate this psychological pain! It is very real, and is just cause for a very powerful lawsuit against the inflictors—the FBI are the inflictors—of such psychological torture.

The psychological principle that they use seems to be best understood as a system to psychological pressures that put a person into a high defensive stance to go to an extreme, and then that stance is broken down by repeated failure to succeed at maintaining the defensive position. There is a principle in human psychology that the human brain is designed to cause psychological pain whenever we fail at an intended goal. This principle must be in our brain because God designed it to encourage us to do better the next time, or if success becomes elusive with too much repeated pain in the attempt, then to flee that goal and no longer attempt that goal. Either fight and try harder again so that success is obtained, or flee and avoid trying anymore at all. This repeated psychological pain motivates the human to do either of those two options. Fight or flight is what the psychologist call this feature of human psychology. Fighting or fleeing are options that are the most obvious, but what if a person finds himself or herself in a torture situation where fighting and fleeing becomes impossible. Resistance to your torturers is a kind of fighting, but if fighting does not end in success where you are freed from the repeated pain because the repeated pain comes and comes and comes with no end in sight, and if you can not flee, then there is a third option to fighting and fleeing—give to your torturers what they want, because you conclude that only then will this horrendous pain finally go away. That is the nature of torture; torture removes the two options of fighting and fleeing, thus forcing capitulation to your torturers. I could see this principle of attempting to fight and flee from the FBI in all of the psychological torture that the inflicted against me, and a decent into motivation to give something that would satisfy my torturers, the FBI.

Now, in order for the FBI to cause psychological pain, they must put a suspect into a battle stance psychologically, and then attack that battle stance so that that person's will to fight is destroyed by the repeated failure that the FBI causes in the life of that person as he or she attempts to fight and fails at many attempts, causing psychological pain at each failure—pain that accumulates over and over again. To make this scenario possible, the person must be put into an extreme psychological battle stance that is unsustainable. This way the FBI can break down that person's unsustainable position over and over again. The FBI can motivate a person into such an unsustainable psychological position using tactics that cause fear. Then the repeated failures can actually, eventually cause fear themselves. Finally, the person begins to self destruct as his or her failures cause more fear, and the fear causes

of water torture, but it would be even more difficult to perceive by the many fools of the world who think that such an evil situation could not happen to them. They would not even perceive the drops of water, let alone understand their any form or abuse or torture is occurring at all. Because of this imperceptible form of torture, the FBI could use such torture techniques to cause false confessions in the form of acting-out the behavior that the suspect reasonably speculates is the goal of this or her torturers, the FBI. In other words, the motivation of torture—give to my torturers what they want so that I can get out of this endless repeated cycle of rising and falling and excruciating pain, over and over again—would be injected into the suspect to cause an acting-out-confession that would then condemn that suspect in court, and the jury would not be convinced that any real torture at all occurred, and so the person who acted-out must indeed be guilty of the former charge, as well as the acting-out-event that most likely will also bring a new charge.

And suppose also that because you are now being investigated by the FBI because of a false accusation, and the FBI in all of their strident effort against you also notice many little events or technical law violations in your life that happen to people all the time, such as telling someone about a new health supplement or vitamin that may help with diabetes, and so the FBI logs that event as a violation of the laws in this country as an attempt to practice medicine without a license to practice medicine. Consequently, because of this false accusation against you, you now have many, many likely future problems legally that you do not really deserve, simply because the law against practicing medicine is being applied against you in a draconian way, simply out of the spite of the heart of the FBI. They hate you and they are not only attempting to destroy you by psychological water torture, but they will apply other laws in an unjust draconian way to destroy you in any way that they can. The FBI has become an abuser of their power, just like a policeman on the street who over uses his gun against people who look guilty. Even as Chicago police during the times of Al Capone are known to be said: "shoot first, and ask questions later". This attitude is not gone from our police system in our day. It is alive and well in the heart of the FBI. This is very real. This is absolutely no joke. Your civil rights are greatly threatened by this attitude in the FBI. All it takes is a false accusation by an enemy of yours, and you to could know the reality of what I am talking about. Do not underestimate the threat on your life and your civil rights of what I am saying.

Now, I am going to discuss, with my non-professional wording because I am not professionally trained as a psychologist (though I do pick up on some of their lingo and will use that lingo to the best of my ability), my best understanding of the psychological principles that the FBI has used against me in the psychological water-torture that they have applied against me. Then I will discuss the actions used by the FBI in my life to invoke those principles and to effect the

The situation and My Case with the FBI and the Omacor (Lovaza) Medication
(23Oct2007)

Note, you may not be able to see the pictures in this file unless you read the pdf version of this file. This file was created with an inexpensive word processor that is not 100% Word compatible. But you should be able to see the pictures just fine if you read the pdf version of this file with your pdf viewer.

The document I wrote some weeks earlier on Sep 19th, 2007 about the psychological pain that the FBI has been causing me over the last 6 years since the FBI investigation against me started 6.5 years ago, where the psychological torture they have been putting me through for at least the last 6 years of that 6.5 year period. This document should be filled out further later. The summary point I wish to make is that Omega3 oils help a person neurologically, and the FBI is covering up the attempt to mess with my Omega3 Oils dose via the Omacor medication, and the prescription as my memory strongly recalls was for 360 oil capsules that would last three month at a rate of 4 capsules per day. And per that understanding I clearly recall making my appointment to see my doctor 3 months later when the prescription would run out. But, the records on the pharmacy printings on the bottles and other printings show a supply that would last a total of 5 months, one fill and 4 refills. I believe that this was done by the FBI in an attempt to destroy the credibility of my memory. I do have a record of the appointment card that shows the date for my next appointment three months after my last appointment with my doctor on 15Oct2007. I believe that the FBI, using the State Secretes Act or some such law—I am not sure of the exact name—is actually allowed to lie and misrepresent things in court if they deem that is necessary. I also believe that the State Secretes Act or Law must have secrete sections that state this fact that misrepresentation in Court is allowed to protect state secretes. But my memory is very clear that the prescription was for 360 capsules for three months. But the filling was for a total of 5 months, or 600 capsules. The reason that they wish to destroy my credibility in this way is that they must cover the fact (I believe it is a fact) that their psychological manipulation techniques push a person by subtle water torture like psychological pain into a direction that is similar to forces that move a person in the direction of schizophrenia. These techniques could damage people permanently if weak people who never became sick with schizophrenia are caused to become sick with schizophrenia because of these very abusive and psychological techniques. The FBI desires very greatly to hide this fact of psychological torture because it goes against the US constitution against cruel and unusual punishment.

The FBI, I believe, was behind the cause for the reduction of my Omacor medication from 6 capsules per day down to 4 capsules per day some months ago. A

The document with the file name
Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof.doc
was indeed written by Daniel David Zuck on Sep 19th, 2007.
And the file dates in pictures in this directory show that.
Also, further evidence is that back versions from before
Sep 19th, 2007, through to the latest version,
version 254 dated 12Nov2007 11:08PM, of my paper entitled
"The Holy Bible's True Spiritual Meanings of Marriage as Pictured
By the Details of Human Sexuality, which God created"
include a section on my, Daniel David Zuck, born 12/14/57, life history
that lead up to the false accusation that I believe is against
me for which the FBI is investigating me. That section, given number 15
in version 254 of my big paper, include references to "water torture". That
term I coined during my therapy sessions with Dave Ferreira to refer
to what I think of as the psychological equivalent of
"Chinese water torture" where by some body is subjected to repeated
drops of water from which that person can not escape, continually
dropping onto their forehead. By psychological equivalent of
"Chinese water torture" I mean the repeated psychological insults
and connections to my awareness that the FBI makes repeatedly
reminding me that I am being investigated day after day for
the last 6.5 years. These earlier versions of my paper have file dates
from before Sep 19th, 2007, and those versions include references
to water torture. The first pdf version of this paper that includes
reference to water torture has file name
BiblicalHumanSexualityV243.pdf
And its file dated 9/18/2007 with time 2:01AM
This is before Sep 19th when I wrote my document documenting
the psychological pain that the FBI has been inflicting on me
for the last 6.5 years. And in that document
Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof.doc
my name is included at the beginning because I wrote it
to give it to a newspaper inland
editor of the San Diego Union Tribune on Sep 19th, 2007 at 3:00 PM, whose name,
is "Jim Okerblom". And in that document
Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof.doc
I say much about water torture because that reference helps make
very clear why repeated insults and reminders by the FBI is a very evil
form of subtle psychological torture that should never be done
to any human being even at all anywhere on earth by any government or
individual upon any other individual, period. So I clearly am the
author of
Psychological Manipulation of Suspects by FBI and the Psychological Pain Thereof.doc
Also, I later made later versions of this document on Psychological Manipulation by
the FBI where I took my name out because I wanted to use those versions of that
not easily distribution to other people. But I realized that any person that
I gave a copy to the FBI would remove that from that person. So I was
at a great disadvantage in truly giving it out. In particular, what I was really
trying to do was anger the FBI into arresting me, because per my 652 page paper
I was, and still am, trying to force the FBI to arrest me because I
want to go to prison on the terms mentioned in by 652 page paper, maybe
with a few enhanced terms and improvements my lawyer may help me to include.
Those later versions of this document on Psychological Manipulation by the
FBI were given a file name such as Papain.pdf and Papain.doc. Then I made
an even shorter version of this Papain document the removed a later portion
of that document that included my life history that lead up to the manipulation
by the FBI. That later shorter version has file name Papain2.pdf, and its computer
file dated at 10/5/2007 2:48AM. The computer directory that this text file
you are now reading includes the following computer files, including this
file you are now reading given the file name "ConnectionTo522Paper.txt". File
dated 11/15/2007 at around 6 something AM; those following computer files, by
name, are:

This document is to document that

Dave Ferreira, Ph.D., on 20 Nov 2007
was shown my Lap Top computer turned
on so that he could see the file dates

helping to establish the authorship of

all versions of my document- that I personally
wrote showing the psychological pain that the FBI
has been ~~causing~~ causing me by their investigation.

The key version of that document was written on
Sep 19th and does include my name and was

Given to the inland San Diego Union Tribune
Newspaper reporter ^{Jim Okerblom} on Sep 19th in both printed and
electronic form and I also showed Dave Ferreira
other things on my computer including ^{readable} pictures

of a book called "The Loved Dog" about psychology
in training Dogs that feed into my deeper understanding
of pleasure helping to reduce Fear. I gave

Dave Ferreira a Flash pen or Flash stick
of 2GB capacity and copied onto that stick

all of the many files relating to my paper and my
documents on the FBI and psychological pain the FBI
has caused me over the last 6.5 years. David Zuck
